Tuckwell Machinery is a family-owned Australian machinery supplier based in Brisbane, specialising in woodworking machinery, joinery machinery, CNC machines, and edgebanders. Founded by Mark Tuckwell and now operated by his son Patrick, the company has grown into one of Australia's most trusted providers of new and used industrial machinery for the woodworking, aluminium, and flat panel industries. With a strong focus on customer satisfaction, Tuckwell Machinery offers expert sales, service, installation, maintenance, and spare parts, with delivery and setup available Australia-wide. Guided by the core principle of "Service,

Service, Service," the team delivers reliable machinery solutions, technical support, and training. page 1 / 2

expertise, and ongoing support to workshops and manufacturers across the country. Website:
